STATEMENT IN SUPPORT OF PETITION TO MAKE SPECIAL

UNDER 37 CFR § 1.102(d)

Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This is a statement in support of the attached petition that the above patent application be made Special on the grounds that the invention described herein is actually being infringed.

(A) There is an infringing device or product actually on the market.

(B) A rigid comparison of the alleged infringing device or product with the claims of the application has been made. In my opinion, some of the claims are unquestionably infringed.

(C) I have made a careful and thorough search of the prior art. The references deemed most closely related to the subject matter encompassed by the claims have been submitted in an Information Disclosure Statement submitted with the specification on July 21, 2003, and already are in record.

The undersigned declares further that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issuing thereon;

Respectfully submitted,
